MATERIALS

Hot glue gun & glue	Elastic wristband
Double-sided clear tape	Artificial leaves
Satin ribbon	

INSTRUCTIONS

-
1. Cut a nine-inch piece of ribbon and line one side along the bottom edge with clear double-sided tape.
 2. Start by rolling up two inches of ribbon into a tight coil. Then pinch the remainder ribbon into loops while circling around the middle coil. To build the petals of the flower, fold bigger and bigger loops as you go.
 3. Affix the bottom of the flower to the artificial leaves with hot glue. Then, glue the completed bloom to the tip of a clothes pin for a boutonniere, or to an elastic wristband for a corsage.
 4. Hot glue a message or name tag to the artificial leaves.
