SUN SAFETY IS
FOR EVERYONE

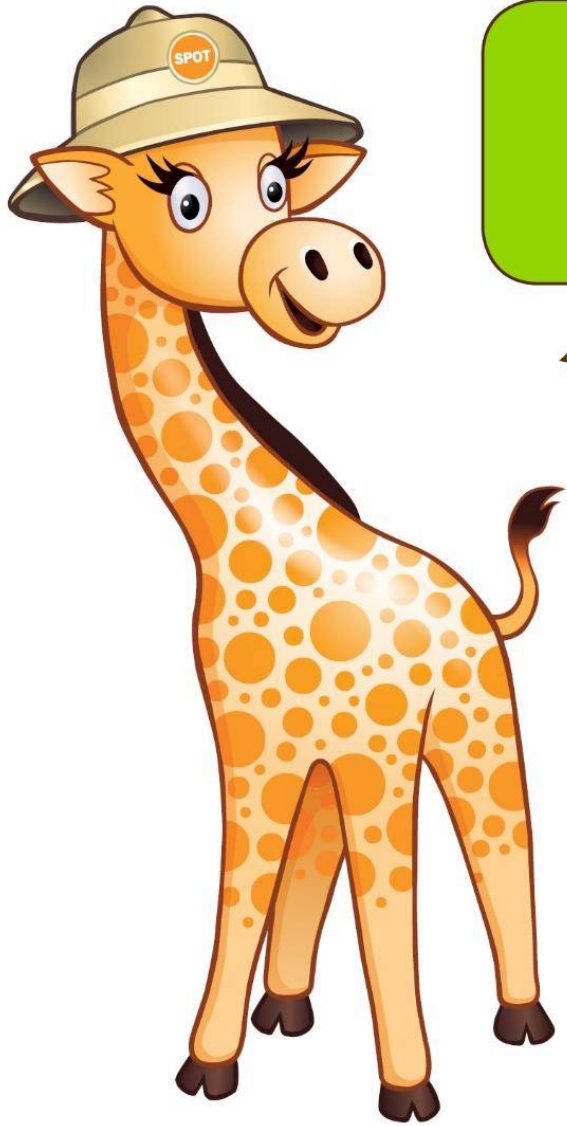

Hi, I'm Gigi
the giraffe!

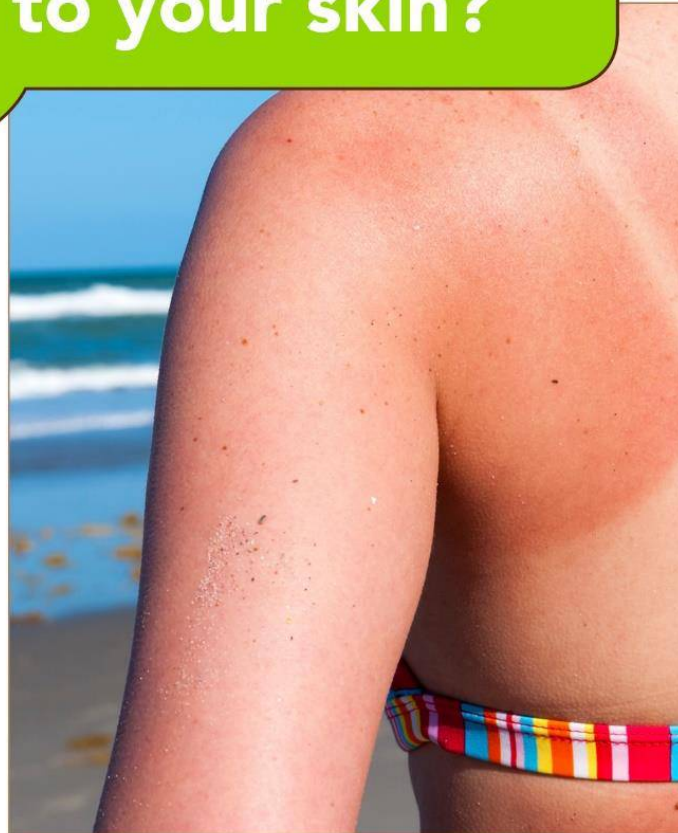

The Sun

What can the sun
do to your skin?

What causes a sunburn?

Sunburn vs. Tan

Summer vs. Winter

A IS FOR AWAY

B IS FOR BLOCK

SPOT™ the Sun Smart Animals: Zoo Scavenger Hunt

Many animals have unique ways to protect their skin from the sun's harmful ultraviolet rays. As you walk around the zoo, can you identify these animals based on the pictures and the hints provided about how they are sun smart?

 A	<p>These animals have black pigmentation that helps absorb the sun's rays, protecting their eyes from sun damage.</p>	 D	<p>This animal lives in the desert and just for fun! The most active the animal could, since it does not have sweat glands.</p>
 B	<p>This pachyderm's natural protection is the skin to protect it from the sun's rays. This oil helps the skin from drying out and offers sun protection.</p>	 E	<p>This animal can have several humps on its body. Its most protective areas though are over its eyes, which act like sun shades to protect its eyes from sun damage.</p>
 C	<p>This all-reptile has a dark tongue that protects it from getting sunburnt as it reaches up into trees to eat leaves.</p>	 F	<p>This bird's prehistoric mammal has a lot of skin to protect it from the sun and the heat. They cover their eyes with their wings to protect their eyes from the sun.</p>

BEFORE YOU HEAD TO THE ZOO, MAKE SURE YOU AND YOUR FAMILY ARE BEING SUN SMART TOO!

Wear protective clothing, when possible. This includes long sleeves, pants, a wide-brimmed hat and sunglasses.

Apply a broad spectrum, SPF 30 or higher sunscreen to all exposed skin before you head out. Remember to reapply every 2 hours while at the zoo.

When you need a break, find a shaded area to rest. Use this time to see adult animals you still need to identify for this scavenger hunt.

GIGI'S GAMES FOR KIDS

Help Gigi through the maze to get to her sunglasses.

Circle the items you would use to help protect you from the sun.

Unscramble these words to find five things that protect you from the sun.

 **HRIST**
 **MRLUBEAL**
SRCSENU 
THA 
 **GASUSNSLSE**

Search for the words listed below.

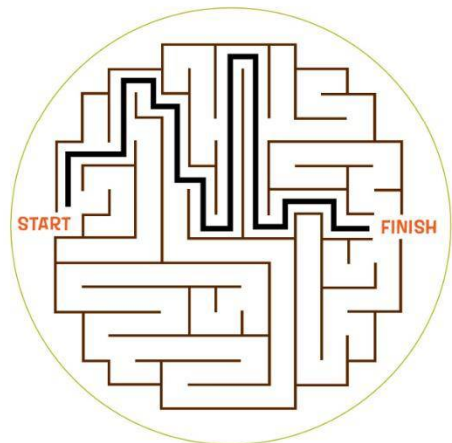

- Shade
- Melanoma
- Sunburn
- UV index
- SPF
- Prevention
- Awning
- Skin Cancer
- Sun Safety
