

Habitats Are Homes

There are four major habitats in the park: ALPINE, FOREST, AQUATIC and GRASSLAND. You can see all four of these habitats as you drive through the park. To protect wildlife, it is important to also protect their habitat.

All living things need food, water, shelter, and space to survive in their habitat. If one of these is missing, animals have a harder time living in that place.

Directions:

Draw a line from each animal to the type of habitat it lives in.
