

**How to create your Christmas Elf puppet craft**

1. Gather your supplies: scissors, brads and string.
2. Print the Christmas Elf paper puppet on card stock paper.
3. Cut out the Christmas Elf design pieces.
4. With small sized brads, poke through the marked holes to put the Christmas Elf together.
5. Use the diagram to attach the string to the indicated brads for moving the puppets arms and legs.
6. Once the Christmas Elf is assembled your puppet is ready to play with or punch out a hole near the top of his hat and put a string through to hang as a decoration.
