

Welcome!

NAED's Kid's Electrical Safety Activities are free to NAED distributor members and affiliates for use in educating your community about electrical safety. The activities provided are for a variety of ages, ranging from coloring pages to more challenging activities. You can just print these activities out on your computer and duplicate them for your children, local schools, churches, and community groups. This is a great opportunity to reach out and also teach children about electrical distribution careers!

Included in NAED's Electrical Safety Activities Kit:

Color Me! Color Petey the Plug, Edison the Light Bulb and Flip the Light Switch.....	2
What Is Electricity?.....	3
Electricity Is Helpful.....	4
Electricity Can Be Dangerous!.....	5
Play It Safe with Electricity!.....	6
Electrical Safety NO-NOs	7
Flip the Script!	8

Petey the Plug

Edison the Light Bulb

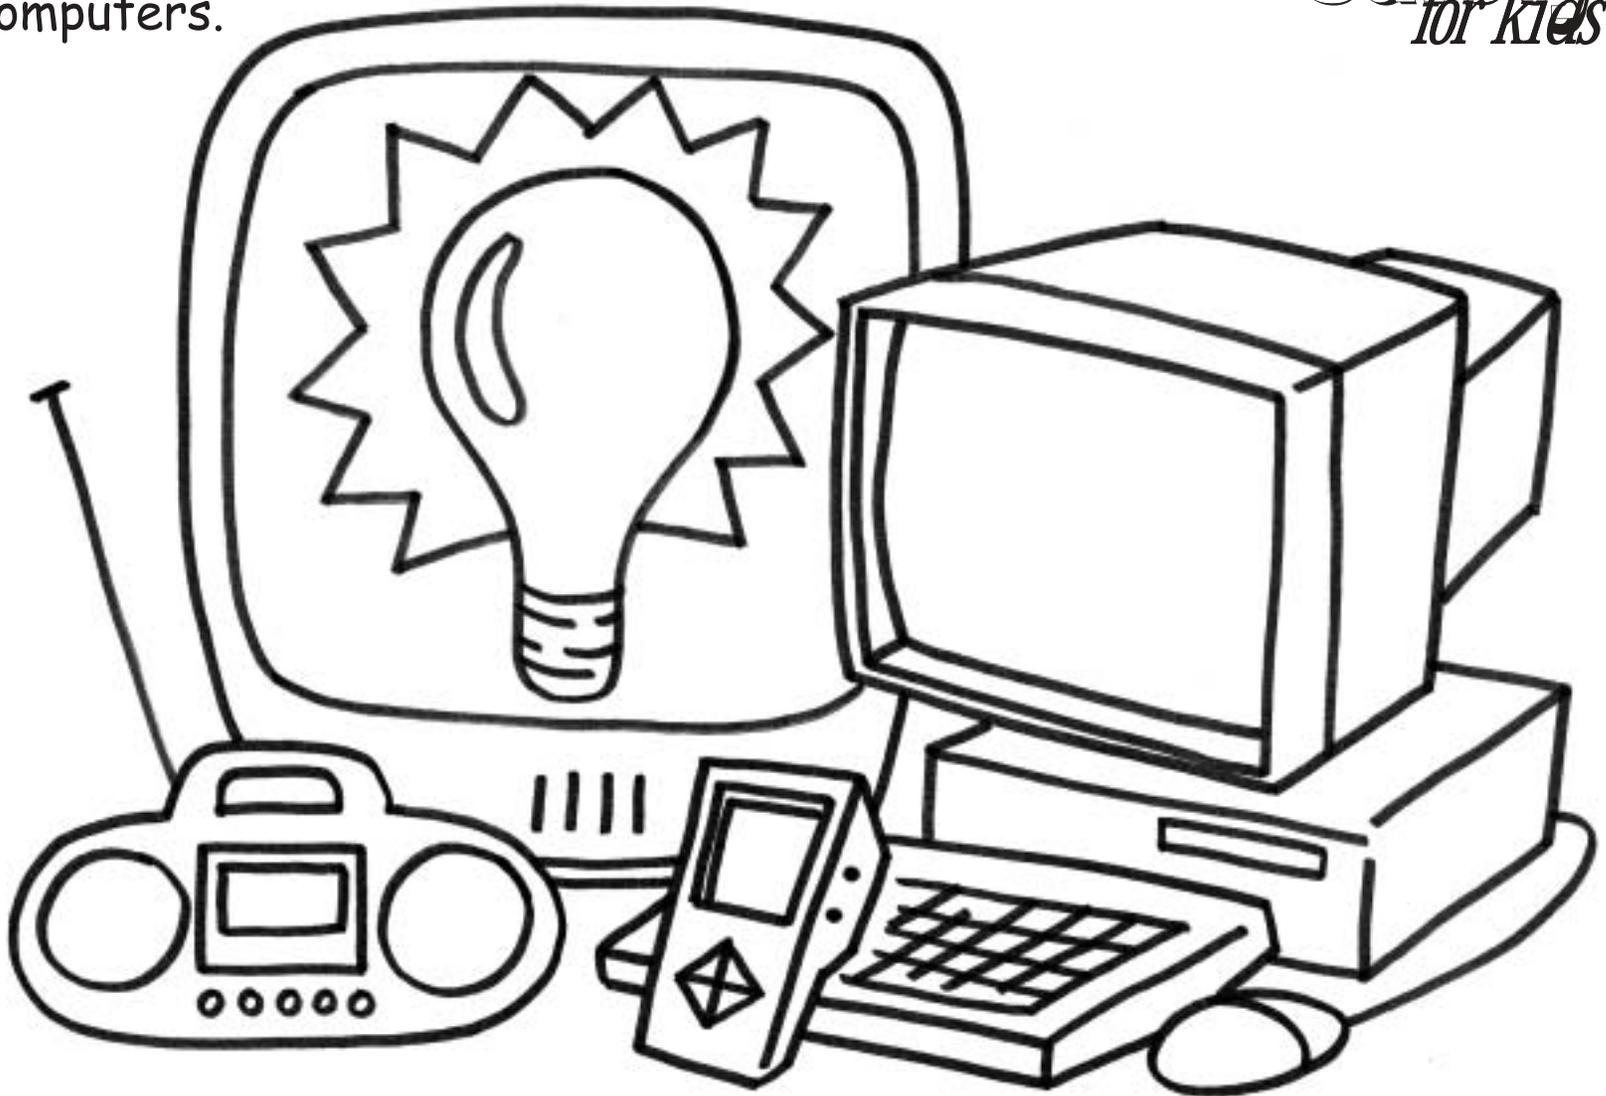

Flip the Light Switch

What is electricity?

Electricity is a form of energy that powers some of the things we use everyday—like radios, televisions, video games, light bulbs, and computers.

Electrical
Safety
for kids

Petey the Plug
Says "Be Safe!"

Electricity is helpful!

Electricity helps us iron our clothes, vacuum our carpets, and dry our hair. It can even help us find a tasty bedtime treat.

Electrical
Safety
for kids

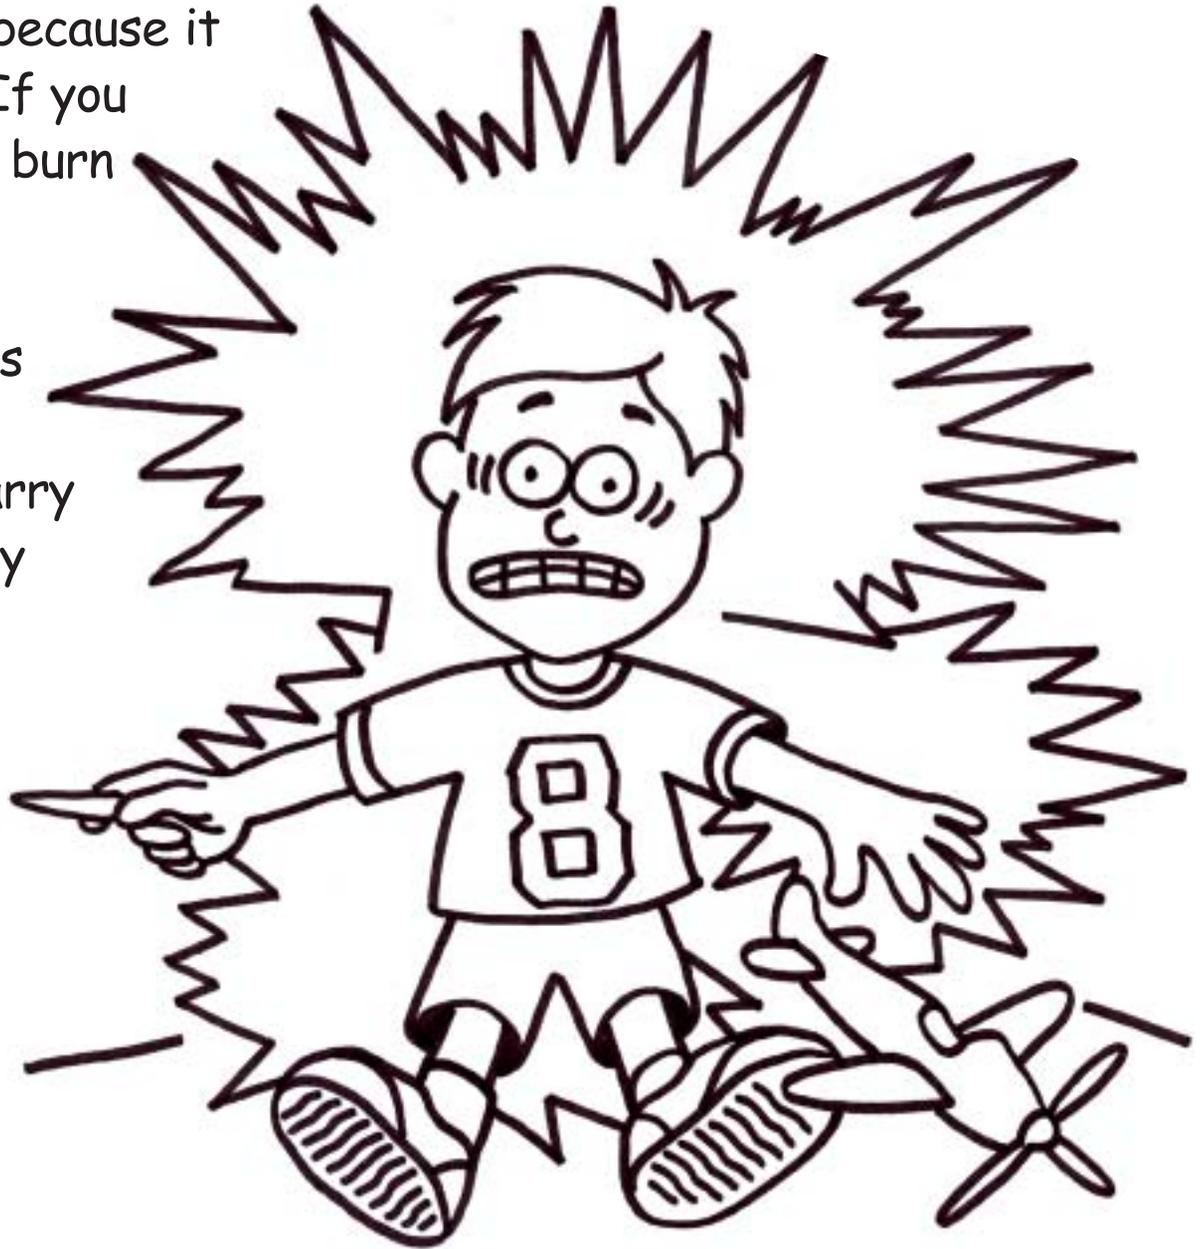

Petey the Plug
Says "Be Safe!"

Electricity can be dangerous!

Electricity is very helpful, but because it is energy, it is also dangerous. If you touch it, it can hurt you. It can burn you or even kill you.

Never stick your fingers or toys into sockets. Never play video games in the bathtub. Never carry your toys by the cord. Never fly your kite near power lines.

Petey the Plug
Says "Be Safe!"

Play it safe with electricity!

Always ask an adult to help when using electricity. Always obey the instructions on warning labels. Always dry your hands before you use electricity. Always avoid areas with "Danger" or "High Voltage" signs.

Electrical Safety NO-NOs

Electrical NO-NOs can be very dangerous and you should NEVER make them angry. Always play it safe! Here are some things you should NEVER do.

1. NEVER stick your fingers or toys into an outlet.
2. NEVER handle plugs or switches when your hands are wet.
3. NEVER use a radio or hair dryer around a bath or shower.
4. NEVER pull a plug from an outlet by the cord.
5. NEVER use cords that are cracked or frayed.
6. NEVER fly a kite near a power line or in the rain.
7. NEVER climb a tree that is near a power line.
8. NEVER play outside during a thunderstorm.
9. NEVER use electrical appliances without adult supervision.
10. NEVER enter areas marked "DANGER" or "HIGH VOLTAGE."
